CLASSIC

WRC

FIA World Rally Championship

Building on more than 40 years of history, the WRC is the pinnacle of rally racing. From unpaved roads and asphalt mountain passes to icy roads concealed by fresh snow, drivers test their speeds on all kinds of roads imaginable in a competition spanning the globe. We draw upon the wisdom and experience gained through the development of the WRC version of the production Yaris to refine our skills and advance automotive technology. All so that we can continue to make ever-better cars.

TEAM WEAR REPLICA

These items are based on the 2019 season uniforms worn by the TOYOTA GAZOO Racing WRT (World Rally Team) crew competing in the WRC.

WEC

FIA World Endurance Championship

The World Endurance Championship is a demanding series of events around the globe, including the 24 Hours of Le Mans with its nearly 90 years of history and tradition.

The Le Mans is counted as one of three major races in the world, and as demanding as it is, with speed and strength our team pushed on and for the first time ever stood first place at the podium.

This, however, is only the beginning of the next challenge and the next round of improvements.

The ultimate power and environmental performance forged on actual roads will form the inspiration of the next-generation super sports car.

Our mission is not just to win races: It's to create cars that will captivate for generations to come.

WRC
